arm band

Hay-Band

Using ancient chinese principals of acupressure the hay-band has been developed to stimulate the LI-11 pressure point in the arm. This point has been used for centuries to help treat the symptoms of allergies including hayfever. Acupressure is believed to increase the flow of natural energy through the stimulation of various pressure points and in doing so, promote well-being.

Full instructions inside box.

Suitable for use by adults and children over the age of 3. Hay-Band should not be worn during pregnancy.

Size guide:
15cm - 40cm
